Anti-A Blood Grouping Reagent, Anti-B Blood Grouping Reagent, and Anti-AB Blood Grouping Reagent:

The reagents can be monoclonal or polyclonal and must be obtained from manufacturers or suppliers licensed by the Center for Biologics Evaluation and Research, Food and Drug Administration for use in microplate tests. The use of reagents from an unlicensed manufacturer or supplier may invalidate the results. Generally, all three reagents are available as part of a kit.

[NOTE—There are many manufacturers and suppliers of these reagents that are licensed by the Center for Biologics Evaluation and Research, Food and Drug Administration. Some examples of licensed manufacturers or suppliers are the following: Gamma Biologics, Houston, TX; and Ortho Diagnostics, Raritan, NJ.]

Auxiliary Information - Please [check for your question in the FAQs](#) before contacting USP.
